## SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

### An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently and promptly, and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

## A ROYAL GREETING

Emperor William Bestows a Brace of Busses Upon Henry's Cheeks.

### GLAD TO SEE HIM BACK

The Return of Prince Henry to German Soil Marked By Freedom From Accident.

All the Pomp and Circumstance Fitting to the Occasion Attended the Arrival.

Cuxhaven, March 19.—The return of Admiral Prince Henry of Prussia to German soil was safely accomplished yesterday afternoon amid all the pomp and circumstances with which the prince's imperial brother has seen fit to mark the successful ending of Prince Henry's American mission.

The same good fortune of freedom from outward incidents, which characterized the prince's trans-Atlantic journey, continued until the end and the landing occurred during a period of brilliant sunshine after an overcast day. The Hamburg-American line steamer Deutschland from Cherbourg having on board the prince and his suite, was first sighted at half past five in the afternoon. The German battleship Kaiser Wilhelm II steamed down the roadstead to meet the Deutschland and returned escorting the big liner. The Deutschland tied up to the new stone quay and was the first ship to dock there.

Emperor William stood upon the quay, surrounded by high naval and municipal officials. As representative of the American embassy at Berlin, Commander William H. Beecher, the naval attaché to the embassy, stood at the emperor's side. The quay was decorated with the flags of all the states of the empire, and the thousands of spectators who covered the roofs of the great warehouses and the wide slopes overlooking the scene, cheered wildly as Prince Henry walked down the gangway from the steamer. Emperor William kissed his brother upon both cheeks and shook hands with the members of his suite, saying a few cheerful sentences to each. In the meantime the guns of the squadron saluted.

Side by side his majesty and Prince Henry then passed down in front of the marine guard, which stood at salute. After this the marine guard passed in review, while the band of the imperial yacht Hohenzollern played the national anthem. The passengers on the Deutschland crowded to the steamer's rail and cheered heartily during the ceremony. Some of the American passengers waved little American flags; otherwise the Stars and Stripes were not flying.

After the inspection of the guard of honor and the veterans by Emperor William his majesty and his party, Prince Henry and his staff and Commander Beecher boarded a tender and, amid fresh salutes, music and cheering, proceeded to the battleship Kaiser Wilhelm II. Upon arriving there the crew of that vessel manned their ship to receive the royal personages. The Kaiser Wilhelm II weighed anchor at 7:15 and started toward Kiel through the canal.

### Disappointed Emigrants

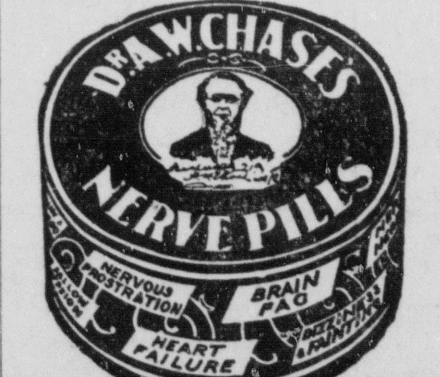

Berlin, March 19.—Five hundred returned emigrants, disappointed with life in the United States, have passed through Berlin on their way to their old homes in Posen, the provinces of East and West Prussia, and in Russia and Austria.

## Nerve Slavery

It is present-day conditions—heaping burdens of work upon the nervous system that tells the story—premature breaking up of health.

It tells why so many men and women, who so far as age is concerned, should be in the prime of health, find themselves letting go of the strength, the power, the vitality they once possessed. It is because that great motor power of the body, nerve force, is impaired. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them are:

- Throbbing, palpitating heart.
- Sleepless nights.
- Sudden startings.
- Morning languor.
- Brain fog.
- Inability to work or think.
- Exhaustion on exertion.
- Flagging appetite.
- Digestion slow.
- Food heavy.
- Easily excited, nervous, irritable.
- Strength failing.
- Loss of flesh and muscular power.
- Settled melancholia.

The above is the genuine package of Dr. O. M. Burns' Nerve Pills, as sold by dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y.

A. J. PELLEN, DRUGGIST.

### GETTING AT IT

#### Conference of House Members Agree On Plan Regarding Cuba.

Washington, March 19.—The advocates of Cuban reciprocity scored a decisive victory last night at the conference of Republican members of the house of representatives, the proposition of Chairman Payne of the ways and means committee, for a 20 per cent reduction of duty, with the Sibley amendment, limiting the duration of the reduced rates to Dec. 1, 1903, being adopted by a vote of 85 yeas to 31 nays. This result was reached at 11:30 o'clock, after a protracted debate followed by a series of exciting roll calls. The first test was when Mr. Payne concluded the speechmaking with a motion for the previous question on all pending propositions. This motion prevailed 78 to 56. A vote was then taken on a substitute offered by Representative Dick of Ohio in behalf of those opposing the reciprocity plan, offering in its stead a plan of direct payment to Cuba covering several years. This was defeated, 57 to 79. An amendment by Mr. Morris of Minnesota to take off the differential on refined sugar was defeated, 50 to 72.

The ways and means proposition for reciprocity with the Sibley amendment limiting its duration was then agreed to, 85 to 31. While the voting was in progress quite a number of those who opposed the ways and means plan left the chamber.

### AN INTERESTING POINT

#### Question of Authority Raised In the Waller Court Martial.

Manila, March 19.—The court martial appointed to try Major Littleton W. T. Waller and Lieutenant John H. A. Day of the marine corps on the charge of executing natives of the island of Samar without trial, held its first session yesterday. Major Waller was represented by Captain Arthur T. Marx. Captain Marx pleaded that the court lacked jurisdiction, as marines cannot be tried by the army except when attached to that service, whereas Major Waller returned to duty with the marines in February, though the acts charged occurred in January, and consequently the army had voluntarily forfeited its right to a trial. The order of either General Chaffee, Secretary Long or the president, Captain Marx asserted, were not sufficient to legalize the proceedings. The court, after a lengthy consideration of the matter, decided that the point was well taken. General Chaffee is now considering the court's decision and probably will leave the final decision to the authorities at Washington. The court in the meanwhile is held awaiting orders.

### Traffic Not Yet Opened.

St. Paul, March 19.—Neither of the trans-continental lines has as yet fully succeeded in clearing its road of the great heaps of snow under which it was buried by last week's blizzard. The Soo Pacific road, which is also a sufferer from the effects of the storm, is making a great effort to reopen traffic, but has only partially succeeded. No reports have been received as to the situation upon the Canadian Pacific line, which was heretofore blocked for several hundred miles. The loss of life and property caused by the storm is still largely a matter of conjecture. But five authenticated cases of loss of human life have so far been reported.

### He Didn't Halt.

Marion, O., March 19.—Daniel McGaffney was shot to death in the Erie railroad yards here last night by Geo. Brayham, a switchman. The tragedy was the outcome of the fatal cutting by tramps of a boy who gives his name as Fred Heath of Chicago. The railroad authorities had ordered all trespassers to keep from the grounds, and because McGaffney refused to obey Brayham's order to halt, he was killed. Brayham not knowing who he was. The men were intimate acquaintances.

### Fatal Streetcar Accident.

Detroit, Mich., March 19.—A car containing Fred Yates and W. W. Magee, a well known provision dealer, was struck last night by a streetcar and wrecked. Magee was killed and Yates is now in a hospital seriously hurt.

### Went to Losses Among Boers.

London, March 19.—Lord Kitchener's weekly report shows that during the week ending yesterday 11 more Boers were killed, seven were wounded, 158 were made prisoners and 126 surrendered.

## FIRE AT PIER

Destructive Blaze Gets Into Shipping At Hoboken Docks.

### COTTON CAUGHT FIRE

Hundreds of Thousands of Dollars Worth of Property Went Up In a Few Hours' Blaze.

Crews Have Narrow Escape, But Happily There Was No Loss of Life.

New York, March 19.—The pier of the Phoenix line in Hoboken burned last night. The steamship British Queen was destroyed, several lighters were burned, the fire threatened the Campbell stores, and for a time it looked as if the flames would reach the Holland-American line docks. The Maasdam of the latter line was towed safely into the stream. Men who were on the docks and on the British Queen when the fire started assert there were no lives lost. The fire started near the end of the Phoenix pier, nearest the North river, among cotton bales, with which the entire pier was crowded. The flames ran in all directions until the whole structure, which was a wooden one, surmounted by a frame shed, was enveloped.

The steamer British Queen, owned by the Phoenix line, was tied to the south side of the pier, and the flames quickly leaped to her upper decks. These decks were covered with cotton bales, which being built of light timber, were the means of at once spreading the fire over the steamer. There was no chance to cut her loose from her berth until about 11 o'clock, when tugs laid hold of her and got her into midstream. Her crew had a narrow escape.

In the same ship as the British Queen were a dozen or more lighters, cotton laden. These caught fire and one or two were saved, partially burned. The captain of the lighter Tonawanda saved himself, wife and child, by pushing a cotton bale into the water, placing his family and himself on it and paddling into the river. The crew of the United States training ship Portsmouth got them ashore safely.

From the lighters the fire got into the Barber line pier. The steamer Heathburn of this line, just in from Hong Kong with tea, was hauled out into the stream with fire spreading over her. The captain, his family and crew escaped. South of the Barber line pier is that of the Rotterdam line. It began to blaze about 10:30 o'clock. At it was the big freighter Maasdam. The captain had steam up and soon had his vessel safely in midstream. Estimates of the loss follow: Piers, \$300,000; British Queen, \$400,000 (thought to be too high); cotton and lighters, \$200,000. Seven lighters are more or less damaged.

Among the crew of the steamer Heathburn were 32 Chinamen. When the flames began to run over the vessel they all scampered to the pier for safety and began to make their way to the streets of Hoboken. There was a large force of custom officers on hand guarding property. As soon as these officials saw the frightened Chinamen they became alarmed that the aliens would make an illegal entry into the country, so with drawn pistols they ordered the Chinese to halt. The command was heeded and then, surrounded by guards, the foreigners were marched to a pier some distance away and there locked up under surveillance for the night. The captain of the Heathburn was not aboard. His wife and children were, but were rescued by the mate.

### Got Out Through Cellar.

St. Clairsville, O., March 19.—Barney Devine and Leonard Stevens, who were arrested, convicted and sentenced to the penitentiary for life for the killing of Clarence Warlick near Somerton a year ago but were given a new trial, broke jail here yesterday. Stevens had been convicted of perjury and Devine was to be tried next Monday for the same offense, no new evidence having been produced sufficient for a second trial for murder. The men cut a hole through two steel plates and an 8-inch bed of concrete in the floor of their cell, and got out through the cellar.

### Corn Duties Advocated.

London, March 19.—In the course of a lecture delivered in London last night Sir Robert Giffen, the statistician, expressed the opinion that Great Britain's total yearly expenditure for armaments in the future would amount to £150,000,000, and advocated a duty on corn as preferable to a high income tax.

### Slave Dealers Routed.

Mozambique, Africa, March 19.—The Portuguese troops captured 162 slave dealers and killed 50 others at Pemba bay recently, when the government forces attacked 12 strongholds of the slave dealers and liberated 700 slaves.

### Will Go In State.

London, March 19.—The maharajah of Jeypoor, one of the many Indian nobles coming to the coronation, has chartered an anchor line steamer to convey himself and his suite to England.

### CHANGE OF DATE

#### Indiana National Guard May Hold Encampment Earlier This Year.

Indianapolis, March 19.—It is probable that the annual encampment of the Indiana National Guard will be held here during the week of the dedication of the monument in May. It is understood that Governor Durbin wants the guard to be here then, and it is likely his wishes will be obeyed. A few days ago Adjutant General Ward directed letters to the officers of the various companies asking for an expression of opinion as to whether or not it would be advisable to have the encampment the same week as the dedication. Inasmuch as there is a desire to have the guard participate in the ceremonies, a number have replied in favor of dedication week as a suitable time for the encampment. It is pointed out that by holding the encampment then there will be a large saving, as many of the companies would go to expense and trouble of making two trips if the encampment is held later. It is also argued that there will be better results if the encampment is held before it is so hot. Last year it was held in mid-summer and it was so hot on the fair grounds that but little was accomplished. There is some opposition, however, among the Indianapolis companies to the proposition to hold the encampment the week of the dedication, as many of the members say there will be such a rush that they will be unable to get away from their private business. The matter will be determined one way or the other within the next few days.

The campaign that ended here Friday with the Republican primaries has proved too strong for many of the party leaders. A number headed by County Chairman and District Chairman Floyd Woods left last night for French Lick, where they will be the guest of their erstwhile political opponent and enemy, Tom Taggart, who is now running a hotel there. The kind of a fight that the Republicans went through here is the kind that "tries men's souls," as it were, and after the returns were tabulated some of them were bordering on nervous prostration. Chairman Elliott, for instance, who spent 48 hours without sleep, working on the returns, and up night and day for several weeks worrying with arrangements which called for appointment of nearly 2,000 election officers, was so ill he could hardly get to the train. The Republican leaders have indeed been leading a strenuous life, and every time they think of the strain just relaxing they register a vow to repeat the direct nomination provision of the primary law. It is announced that the non-partisan committee that intends to make a study of primary election returns for the benefit of the next legislature will have its first meeting at the Commercial club Friday night.

The Republicans of the Ninth district will hold their congressional convention at Kokomo tomorrow. This is the first year for Howard county in the Ninth, so it was given the honor of entertaining the convention. There is no doubt but that Representative Charles B. Landis of Delphi will be renominated. Many predict that L. S. Baldwin of Noblesville, his only opponent, will not allow his name to go before the convention, as he has no chance of winning. He has his own county and possibly seven or eight votes outside, but Landis has the rest, which is far more than sufficient to renominate him. Landis, it is believed by his friends, is growing in popularity in his district. There are some localities in which he is not as strong as should be, but as a rule he is well liked. He is now ending his third term and nothing short of a landslide will keep him out of congress for a fourth term. He passed through here today en route to Kokomo. Secretary Whitaker of the state committee and several other prominent Republicans left this afternoon for Kokomo to be present at the convention.

### Allying Prospects.

Chicago, March 19.—During the next few days over 3,000 Dunkards and others will pass through Chicago en route to new homes in the Northwest. The movement will include entire families from Indiana, Ohio, Pennsylvania and the Virginias, and they will for the most part go to the Mouse river district of North Dakota. Good crops in the Northwest last year and the glowing reports sent back by preceding settlers are the causes that have induced the present heavy emigration.

### Strike Wearing Out.

Norfolk, Va., March 19.—The strike of the streetcar men has about died a natural death. There has been a cessation of demonstrations on the part of the strikers and their sympathizers. It is the general opinion that this was brought about by the sentence of J. W. Jenkins to two years in the penitentiary on the charge of attempting to wreck a car.

### Discharged His Obligation.

Mishawaka, Ind., March 19.—P. J. O'Connell, who committed suicide Sunday last by throwing himself over Niagara Falls, was a rubber maker of this city. He stored his personal effects and left here Friday last, first giving a friend sufficient money to discharge every debt he owed.

### Will Be An Army Surgeon.

Bloomington, Ind., March 19.—Dr. Fletcher Gardner, one of the best known physicians and surgeons of this city, will leave tomorrow for Manila, where he will be assigned as a contract surgeon in the United States army. Dr. Gardner is the fifth appointment from Bloomington.

## STATE NEWS NOTES

### Incidents and Accidents and Doings of Note Throughout Hoosierdom.

### WRONGFUL DETENTION

Indianapolis Woman Receives Damages From Shopkeepers Who Accused Her Unjustly.

### Appellate Court Holds That Forced Detention In Store Amounted to False Imprisonment.

Indianapolis, March 19.—The Appellate court yesterday affirmed the Marion circuit court in the case of Mrs. Mary Smith against Eftymoson & Wolf and the later firm will have to pay Mrs. Smith \$1,200 damages for false imprisonment. The imprisonment consisted in taking hold of her arm and compelling her to go to an alcove in the rear of the store and submit to an examination for articles which might be under her cloak, at the same time accusing her of stealing a pair of shoes which she held in her hand.

### Wife Pays Deficit.

Sullivan, Ind., March 19.—The invoice of the general stock of D. A. Murphy, the missing postmaster at Fairbanks, has been completed. The stock involved \$1,650, with debts of \$1,500. Mrs. Murphy will be allowed \$600 exemption. She paid the small deficit in the postoffice. No trace of Murphy has been found.

### Astonishing Allegation.

Michigan City, March 19.—When Mrs. Mary Alberson filed suit for divorce from her husband, Alfred Alberson, she alleged that Alberson had sold her for \$2 to William Denny of this city. A separation followed, and Mrs. Alberson was granted a divorce. She has since married Denny.

### Rhodes Growing Weaker.

Cape Town, Mar. 19.—Cecil Rhodes is gradually growing weaker. Mr. Rhodes has received the following cable message from Queen Alexandra: "I am sorry to hear of your trying illness and pray God to restore you to health." Lord Kitchener has personally telegraphed a request for daily bulletins concerning Mr. Rhodes' health.

### Kentucky Legislature Ends.

Frankfort, Ky., March 19.—The regular session of the Kentucky general assembly ended by limitation at midnight. The political restricting bills and the bill providing for an appropriation for state representation at the St. Louis fair were defeated.

### Widow of Riotous Strikers' Fury Demands Damages From Company.

Terre Haute, Ind., March 19.—Mrs. J. K. Hagerman, widow of the coal miner killed by trainmen of the Interurban line at Seelyeville in the early days of the street railway strike, has brought suit against the company for \$10,000 damages. She claims the company unlawfully provided the trainmen with weapons and instructed them to use the guns. She also alleges that the trainmen left their cars and fired at random in the dark, and that her husband, who was on his way home, was struck with a bullet, which caused his death. The belief is that the men left town soon after the shooting. They were imported men, brought here to take the places of strikers.

### Road Asks For Aid.

Bloomington, Ind., March 19.—It is stated here on good authority that the Indianapolis Southern railway people will go to Bloomington as soon as they get their Indianapolis franchise, and ask for a subsidy through Monroe county. As the Indianapolis franchise specifies a special coal rate, it is understood that Bloomington will be the point from which the line will branch west to Midland, in the Green county coal district, and south to Bedford and then to Rockport. There is little doubt that Monroe county will vote a 2 per cent subsidy, which in itself will amount to about \$75,000, as soon as the proper assurance can be obtained that the road will be constructed.

### Lost Life to Save Cash.

Anderson, Ind., March 19.—Warren Huffman was fatally burned and his residence and household effects were destroyed by fire at Fishersburg, six miles west of this city. Huffman dashed into the house to get \$350 he had secreted in a bed, and while trying to escape again the floor fell through and he was pinioned among the timbers and fairly roasted; most of the paper money burning in his hands.

### Will Be An Army Surgeon.

Bloomington, Ind., March 19.—Dr. Fletcher Gardner, one of the best known physicians and surgeons of this city, will leave tomorrow for Manila, where he will be assigned as a contract surgeon in the United States army. Dr. Gardner is the fifth appointment from Bloomington.

## The Excuse

Made by many a man for taking a drink at the bar that he needs a bracer. He feels weak, his stomach is "out of sorts" and liquor makes him "feel good." The tired man who sits on a pin leaps up with new energy, but no one would say that this energy was a direct result of the strength giving power of a pin. So with the energy induced by liquors. They only spur the body on, but do not strengthen it.

Strength is made from food properly digested and assimilated. When the stomach is diseased there is a failure to extract the nutrition from food and the body grows weak. The weak body needs strengthening, not stimulating. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, so that the nutrition of food is perfectly extracted and assimilated and the body nourished into health and strength.

There is no alcohol in "Golden Medical Discovery," and it is entirely free from opium, cocaine and all other narcotics.

Accept no substitute for "Golden Medical Discovery." There is no other medicine "just as good" for diseases of the stomach and allied organs.

"Your 'Golden Medical Discovery' and Dr. Sage's Catarrh Remedy have been of great benefit to me," writes (Prof.) Pleasant A. Oliver, of Viola, Fulton Co., Ark. "Before I used the above mentioned remedies my sleep was not sound, digestion bad; a continual feeling of misery. I now feel like a new man."

Dr. Pierce's Pleasant Pellets regulate the bowels and liver.

PRESIDENT ROOSEVELT is letting it be known that he has little sympathy for special bills designed to correct the military record of deserters during the civil war.

The republicans in congress decided in favor of reciprocity for Cuba by a vote of 85 to 31. By this vote the ways and means committee's plan for a 20 per cent. reduction of duties was accepted.

The state auditor's report on the condition of the banks of the state is highly gratifying. Without exception these institutions are in a flourishing condition and their books show not only a large increase in the aggregate of deposits since the last report but also in the number of depositors. The people of Indiana are getting their share of republican prosperity. —Terre Haute Tribune.

EX-PRESIDENT CLEVELAND celebrated his sixty-fifth birthday Tuesday. He is said to be in good health again and is planning some extensive hunting and fishing trips for the coming season.

UNDER the provisions of the new primary election law all who expect to be candidates before the primary should notify the city chairman if it is a city election, and the county chairman, if it is a county election at least ten days before the date of the primary.

THE republicans of the Ninth congressional will meet in delegate convention at Kokomo on Thursday of this week to nominate a candidate for congress. The indications are that Chas. B. Landis will be re-nominated without much opposition.

IN order to defeat the plans of Hill, Gorman et al. Bryan has suggested the availability of Tom L. Johnson, of Cleveland, for leader, of the democratic hosts. Bryan certainly has not forgotten that Johnson made a speech against 16 to 1 in the Chicago convention in 1896.

THE test of the new primary election law in Marion county has proved the weak points of this law. The principle of the primary law is generally accepted but all the features of the present law are not satisfactory. The weak places however are being found out by trial and the next legislature will certainly correct these.

IT is rumored that H. Clay Evans, who has been pension commissioner since he was appointed by President McKinley in 1897, is to be promoted to the Mexican ambassadorship. There have been rumors for a year or two that he would be transferred from his present position to some other equally as good.

PUBLIC opinion will fully sustain the President and secretary of war in declining General Miles' request to send him to the Philippines to "end the war." The war is practically ended there now as far as organized resistance to the United States is concerned. Not to speak of the injustice to the officers now there who have borne the brunt of the battle, it would be very unwise at this late date to inaugurate a new policy with the certain result of exasperating the Filipinos. General Miles seems to have a talent for doing the wrong thing at a wrong time.—Journal.

Several pupils of our township took the examination for graduation.

#### RESOLUTIONS:

WHEREAS, the series of Driftwood township institutes for the year 1901-1902 has closed.

Be it Resolved, That, we as teachers have been benefited by our coming together and discussing the work as well as outlived and such other work which was discussed from time to time.

That we appreciate and commend the efforts of our worthy county superintendent, J. E. Payne, for his untiring efforts in trying to promote thoroughness in organization and requiring and accepting nothing but accuracy from our pupils.

That we also appreciate the commendable work of our trustee, J. C. Bland, for his earnest efforts in making our schools better, and the personal advice which we have received from him.

That we extend our thanks to G. W. Reed, our chairman, for his energetic workings to make our institutes a success; also to our secretary, Miss Ida Sutherland for her diligence in the recording of the minutes.

That a copy of these resolutions be recorded in the secretary's book and a copy be furnished to the local correspondents of the county papers.

### Beauty is Health.

Walnut Lake, Ark., June 8, 1900.  
I thank you for the benefit I received from your advice and the Wine of Cardui I took in my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the menses, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.

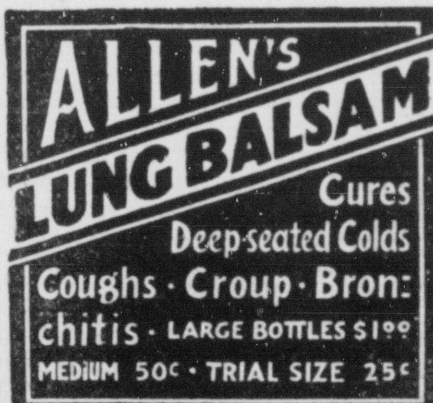

Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

### WINE OF CARDUI

is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Wan faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb! Beauty flees quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$1.00 bottles of Wine of Cardui.

**Anthracite Miners In Convention At Shamokin.**

Shamokin, Pa., March 19.—The most important convention of hard coal miners since that which resulted in the memorable strike of 1900 began here yesterday and is likely to remain in session until Saturday. The three anthracite coal districts, known technically as Districts 1, 7 and 9, United Mine Workers of America, are represented by over 600 delegates, the majority of whom presented their credentials. President John Mitchell arrived from Altoona and was met at the station by President John Fahy and Secretary George Hartlein of District No. 9. He was not accompanied by Secretary and Treasurer Wilson, the latter having gone to Huntington, W. Va., to preside over a convention of the bituminous coal miners. The failure of the operators to meet the officials of the mine's union was the principal topic of discussion among the delegates prior to the convention. Many of them are insistent in their demand for recognition of the union, but the impression prevails that if old concessions are made by the operators the matter of recognition will be permitted to rest for the present.

**Washington, March 19.**—For three hours yesterday the senate had under consideration the bill providing for the protection of the president of the United States and for the punishment by United States courts of those who commit assaults on him. The general debate on the river and harbor appropriation bill in the house was enlivened by Mr. Hepburn (la.) who made his annual onslaught on the measure. Contrary to his usual custom, Mr. Hepburn found several things in the bill to commend, although some of his criticisms were quite severe. It was agreed that general debate on the bill should close this afternoon at 3 o'clock.

**Designs On King's Purse.**

London, March 19.—King Edward's bank balance narrowly escaped a reduction to the extent of £220 yesterday afternoon by a forged endorsement of a check. The recent victories of the house of Baldwin at the Paris Exposition give to its products a value and prestige not possessed by any other American piano. The grand Prix awarded the Baldwin Piano is an honor coveted by all the manufacturers of the world, but which has never been bestowed upon any American piano except the Baldwin. The Silver Medal awarded the Hamilton pianos and organs shows the estimate of the International Jury of these Standard Instruments. The fifteen other awards [gold, silver and bronze medals, and honorable mentions], serve to emphasize the Great one, and show the high value placed upon the details of construction and the inventions embodied in these instruments.
